Finishes

White, almond, black.

Patents

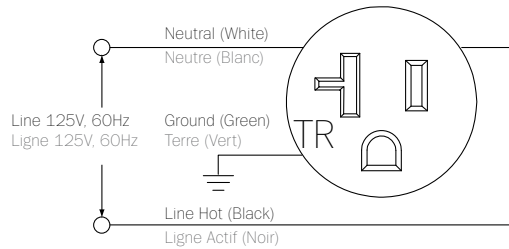

US # 7,956,295 B2 & 8,912,439 B2
Worldwide utility patents pending.

Certifications

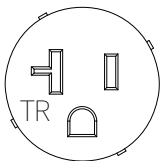

Diagram

22 System tamper-resistant receptacles use 12GA (2.63mm) wire for 20A output.

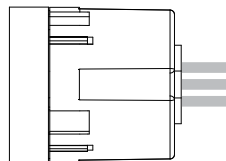

Best practice statement: For ease of future access or maintenance, we recommend a single incoming wire to the junction box (no J-box splices) immediately behind the 22 System receptacles.
