

Switch on/off single pole

22.3.2

Description

The switch is an on/off single pole line voltage component. It can be inserted into any of the 22 System mounting plates.

Electrical

120V, 15A

Materials

Polycarbonate casing, electrical components.

Finishes

White, almond, black.

Patents

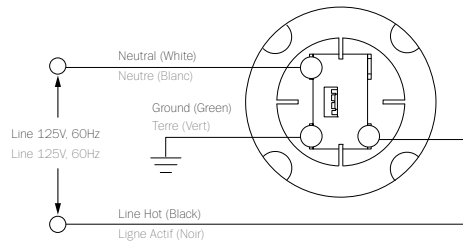

US # 7,956,295 B2 & 8,912,439 B2
Worldwide utility patents pending.

Certifications

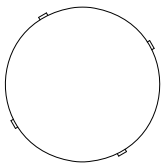

Diagram

22 System receptacles use 14GA (2.08mm) wire for 15A output.

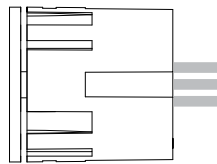

Best practice statement: For ease of future access or maintenance, we recommend a single incoming wire to the junction box (no J-box splices) immediately behind the 22 System receptacles.

Dimensions

35 (1.38")

36 (1.4")
